Dear Mr Kahraman,

I am delighted to confirm that your application for ICE Graduate membership has been accepted. Your Graduate membership number is **93824772** and we ask that you quote this in any future correspondence with ICE. Now you can start to enjoy the [benefits of membership](#).

The academic qualification you have selected in your application fully meets the [educational base](#) requirements for future admission as a **Member of ICE (MICE)** and registration as a **Chartered Engineer (CEng)** with the Engineering Council. You are eligible to apply for CEng MICE when you have completed an approved [Training Scheme](#) or satisfied a [Career Appraisal](#) and are successful at the [Chartered Professional Review](#).

You can now demonstrate your status as a Graduate Member of ICE by using the post-nominal **GMICE**. Using GMICE post-nominal letters identifies you both nationally and internationally as a member of the world's leading civil engineering institution. It distinguishes you as a graduate who is eligible to become professionally qualified with ICE – it is an important step in your Initial Professional Development journey towards professionally qualified status.

As an example, Graduate Member Jo Smith can describe herself as 'Jo Smith GMICE'.

You also have access to [MyICE](#), the secure Members area of the website. Within this section, you can access many useful ICE resources, sign up for newsletters, update your contact details, pay your annual subscriptions and print your receipts. If required, you can reset your MyICE [password](#).

We hope you enjoy a long and prosperous association with ICE.

Welcome to the Institution.

Yours sincerely,

ICE Education, Learning & Assessment Team
