

OGUZ KAHRAMAN, PMP®

Civil Engineer

PROFESSIONAL SUMMARY

PMP certified Strategic Construction Manager with demonstrated success assessing project scope and adhering to deadlines. Safety-conscious and detail-oriented with 10-year industry background. Well-versed in team leadership and task delegation to drive project progress and foster client satisfaction.

Demonstrable skills in building and leading teams of 100+ employees and contractors through design, planning, permitting, budgeting, strategic procurement, and project execution, across structural, mechanical, electrical, and plumbing domains. "C" class certified HSE specialist, ISO 9001, OHSAS 18001 and ISO 14001 Quality Management and Project Management Professional (PMP®) certified civil/structural engineer with AutoCAD, MS Office, MS Project and SYSPRO knowledge.

To seek and maintain full-time position that offers professional challenges utilizing interpersonal skills, excellent time management and problem-solving skills. Organized and dependable candidate successful at managing multiple priorities with a positive attitude. Willingness to take on added responsibilities to meet team goals.

WORK HISTORY

CONSTRUCTION MANAGER 03/2021 to 08/2021

Delta Star Group, Bursa, Turkey

- Managed a \$4M Tailings Storage Facility and directed construction of a \$40M Zinc and Copper Mine Processing Plant.
- Customized design changes according to scope of work and facility conditions, which couldn't be predetermined during planning.
- In execution, oversaw 100 excavation contractors to displace 180,000 cubic meters of earth for building foundations to support 20,000 square meters of facility space and 800,000 cubic meters of dry stack deposition volume.
- Controlled progress payments within scope, budget, and time constraints as the single authorizer of all construction payments.
- Oversaw employee attendance record, handled payroll and ordered new materials for sites.
- Collaborated with contractors, architects, engineers and public agencies to complete projects within timeline limitations and budget constraints.
- Promoted adherence to safety policies and procedures, ensuring proper handling and operation of materials and equipment.
- Led weekly production and operations contractor meetings, facilitating stronger communication and helping to resolve critical issues.
- Digitally archived weekly progress and technical knowledge base photographs of all assigned projects.
- Conducted routine quality audits to verify progression against specifications and initiated corrective actions to remedy concerns.
- Verified completed projects met approved time, quality and cost estimates.
- Developed solutions and strategies across customer industries by capitalizing on emerging trends.

- Performed regular job site observations to provide direction for general contractor personnel and subcontractor laborers.
- Assisted in organizing and overseeing assignments to drive operational excellence.

CONSTRUCTION MANAGER 10/2019 to 01/2021

Trevali Mining, Perkoa, Burkina Faso

- Managed construction of \$7M+ Tailings Storage Facility, 2 Phase 3 Tailing Dam and Tailings Storage Facility, 2 Phase 2 Bund Wall Raise, in compliance with Canadian Dam Association, ICOLD and Health and Safety Executive regulations, to support the Canadian government's 20-year contract in Burkina Faso.
- Single threaded owner of all irreversible decisions and ensured delivery 2 months ahead of schedule. Decided to raise a bund wall for the previous tailings dam to extend its life by 8 months, reducing overall site-wide material and labor costs.
- Oversaw earthworks, lining, and pipelining work, displacing 500,000 cubic meters of earth, 170,000 square meters of liner and 3000 meters of drainage pipes for leak detection system.
- Led all strategic procurement for capital equipment, while delivering project under budget.
- Evaluated subcontractor bids and identified most qualified and economical candidates, establishing advantageous contracts and cutting costs.
- Helped customers complete purchases, locate items and join reward programs.
- Worked closely with shift manager to solve problems.
- Worked flexible schedule and extra shifts to meet business needs.
- Implemented systems to improve process efficiency and reduce project duration.
- Organized the accommodation of all the subcontractors related to construction and provided work equipment for them.
- Guided and directed third-party inspectors through project construction, commissioning and closeout.
- Monitored subcontractor operations and applied effective time, resource and money management strategies to delivery under-budget project completion.

SITE MANAGER 04/2016 to 10/2019

Eksim Investment Holding, Istanbul, Turkey

- Managed construction and installation of wind farms valued at \$130M+, with 118 MWm of capacity for sale to Turkish government.
- Developed and led multidisciplinary team of contractors and 100+ staff, acting as single authority for all major issues on-site.
- Managed progress payments, controlling for budget and time constraints.
- Oversaw re-construction of custom designed roads for transportation of turbine wings.
- Led quality assurance for isolations, earthing systems, and backfilling works of turbines and their foundations and also led government permitting process, gaining mandatory ministry acceptance for all turbines.
- Supervised contractor work processes and adherence to project schedule.
- Coordinated site investigations, documented issues and escalated to executive teams.
- Communicated daily with vendors to keep project fully operational.
- Planned, coordinated and managed operations and field safety programs for building construction and infrastructure and public works projects.
- Read plans and blueprints and communicated to workers.
- Managed site development with assistance from civil engineers and complied with city and county ordinances.

- Attended weekly meetings to discuss safety procedures, compliance issues and facility maintenance.
- Read pump controls and piping configurations, testing calibration and monitoring equipment.
- Maintained records and logs of work performed and materials and equipment used.
- Delegated assignments based on plans, project needs and knowledge of individual team members.
- Created weekly and monthly reports and presentations for management team.

TECHNICAL MANAGER 01/2014 to 04/2016

Sinas Insaat Mimarlik San. Tic. Ltd. Sti., Izmir, Turkey

- Managed 10+ contractors and 100+ staff at Tuprag Efemcukuru Gold Mine, subsidiary of Eldorado Gold.
- Oversaw all surface construction, excavation and plumbing work, which contained reinforced concrete foundations, curtain walls, stocking areas, stone walls, washing and lubricating stations, separating sumps, mill-dry building and interior designs of 5 buildings.
- Managed deliverable estimates, negotiated resource conflicts and allocated resources.
- Evaluated customer impact risk, reputation risk and regulatory risk.
- Delivered services to customer locations within specific timeframes.
- Conferred with engineering staff and other personnel to identify and resolve problems with design or implementation.
- Performed routine training and attended special events to enhance job knowledge and skills.
- Prepared and presented project cost estimates, determined project feasibility based on data analysis and recommended improvements.
- Prepared site reports and organized subcontractor invoices, codes documentation and schematics.
- Created work schedules and adjusted as needed to meet project deadlines and keep shifts properly staffed.
- Supervised and monitored daily tasks of 15 subcontractor companies.
- Applied engineering principles to troubleshooting and followed up on defined corrective actions to prevent reoccurrences.
- Gathered data, incorporating into drawings, schematics and maps.

CIVIL ENGINEER 08/2012 to 01/2014

Turkish Armed Forces, Sirnak, Turkey

- Prepared technical specification documents for product and service procurement for construction work in the Fortification Department Project Office
- Managed preparing and controlling budget estimates, within constraints of predetermined fiscal plan by the 6th Motorized Infantry Brigade and subordinate units under command of the central project office.
- Checked technical designs and drawings for adherence to standards.
- Ordered and tracked delivery of construction materials and supplies from vendors.
- Reduced risks by reviewing permits process to comply with regulations.
- Acted as primary point of contact for commercial clients and vendors.
- Inspected installation of precast structures, concrete and earthworks.
- Managed quality assurance and laboratory testing for concreting operations.
- Assessed construction operations for compliance with safety rules and environmental regulations.

CIVIL AUDITOR 01/2012 to 08/2012**Ilkay Building Audit**, Izmir, Turkey

- Managed feasibility studies for 15 superstructural projects' drawings and applications with a total value of \$1M.
- Supervised steelwork, framework and concrete pouring according to technical specifications and application projects with the highest standard for public health and safety.
- Monitored execution of contract work for compliance with design plans and technical specifications.
- Managed over 100 staff in superstructural projects.
- Oversaw quality control and health and safety matters for construction teams.
- Developed suggestions for technical process improvements to optimize resources
- Worked within applicable standards, policies and regulatory guidelines to promote safe working environment.
- Monitored quality assurance and laboratory testing for concreting operations.
